

August 28, 2020,

Dear Parents and Guardians of middle school and high school students:

We are preparing Chromebooks for your children to use during hybrid learning and for students whose parents have chosen remote learning. We have created a page on the district web site dedicated to the relevant policies that must be signed and submitted by students and parents.

Students who are receiving a Chromebook (students in grades 6-12)

In order to be eligible to receive a Chromebook, parents/guardians and students **must** sign and submit the policies and agreements below:

- [Acceptable Use Policy](#)
- [Device Agreement](#)

Students who bring their own devices (grades 11 and 12 *only*)

Parents/guardians of students in grades 11 or 12 who have granted their children permission to bring their own devices to school, and the students themselves, must sign and submit the policies and agreements below:

- [Acceptable Use Policy](#)
- [BYOD Agreement](#).

All students will be able to pick up their Chromebooks from the high school and the middle school cafeterias according to the information in the table below:
