For Immediate Release:

Registration for the SCOPE After School Enrichment Focusing on STEM is now open!

By Patricia Mannion, program director

Welcome to the world of STEM! Science, Technology, Engineering and Mathematics are all around us and are a part of our everyday lives. Let's get hands-on, creative, experimental, and maybe a bit messy as teachers work to explore various topics related to STEM for grades 2-5 in SCOPE's After School Enrichment Program hosted at Stewart and Stratford.

Registration for this program is now open! This eight-week program (March 27-June 5) is open to students who attend Stewart and Stratford Schools. Please check the district website for the link to enroll: the deadline for enrollment is March 10, 2017.

While working together on exciting group projects, we will have tons of fun investigating STEM topics and learning techniques like chromatography, basic engineering, algorithms, and more! Of course, we will discover the "why" and "how" of each of these activities. So, students please join us, and bring your curiosity as we create fun and innovative projects that inspire imagination and creativity. After school teachers include Kerry Calvert, Tom Corso, Micke Davalos, Kathy Dubuke, LeeAnne Kuks, and Rianna Kane.

For more information, please contact SCOPE Program Director Patricia Mannion pmannionscope@gmail.com or SCOPE Office jcarbone@scopeonline.us 631-360-0800 ext. 148
