

Dear Garden City Schools Community,

As you know, it is required for everyone to self- screen for COVID-19 every morning before coming to school. Our [web-based screener](#) is available via email link (sent each morning at 5 am) and on our parent login/staff login page under K-12 alerts. Please use this link to screen each child before sending them to school/ putting them on the bus. **Please take a screenshot of each thumbs up for each child.** You or your child will need to show this to your bus driver or school greeter. Any child who cannot show that they have successfully completed the screener will have their temperature taken upon arrival at school.

We hoped to have the APP ready for rollout before school opening but it is not fully developed and it is still going through some enhancements. We will send another communication regarding the screening app later this week.

Thank you for your patience and cooperation as we address this issue.
